

# digifilm™ 70

harnessing the environment with  
the latest in window film technology

## reduce the energy, enjoy the light

digifilm™ 70 window film is a highly effective coating which reduces incoming solar heat and UV light, helping you to save money on energy bills, protect occupants and reduce fading. Professionally installed digifilm™ is virtually undetectable, making it ideal for business, homes and the retail sector.

## Reducing energy costs and CO<sup>2</sup> emissions

## performance data

total solar energy rejected	43%
solar energy reflected	11%
solar energy absorbed	39%
solar energy transmitted	50%
visible light transmitted	67%
visible light reflected - interior	11%
visible light reflected - exterior	11%
ultra violet light rejected	99%
shading coefficient	0.66
solar heat gain coeff. (g Value)	0.57
infrared rejection at 980 nm	77%
glare reduction	24%

## performance guide

solar heat rejection	☆☆☆☆☆
glare reduction	☆☆☆☆☆
UV reduction	☆☆☆☆☆
fade reduction	☆☆☆☆☆
scratch coating	yes
warranty period	10 years

Product Application: This film should only be installed by an approved Digi Glass installer. Specific procedures have to be followed.

To ensure digifilm 70 warranty, please use recommended edge sealant

Warranty: 10 year warranty for internal use (conditions apply)

Performance results are subject to variations within industry standards and are only intended for estimating purposes.
